

Axial wall fan

## Axis-QA

Air capacity — up to 1700 m<sup>3</sup>/h

### ■ Use

- Supply and exhaust ventilation systems installed in various premises.
- Mounting in ventilation systems with low static pressure requiring high air capacity.
- Direct air exhaust.

### ■ Design

- Compact steel casing covered with special polymer coating.
- Aluminium impeller.
- The casing is equipped with a square mounting plate and flange for easy surface wall mounting.
- The fan is equipped with a power cord and external terminal block for connection to power mains.

### ■ Motor

- Single-phase asynchronous external rotor motor with axial impeller.
- Equipped with ball bearings for longer service life.
- Integrated thermal protection with automatic restart.

### ■ Speed control

- Smooth speed control with an external thyristor controller or step speed control with an external auto transformer (both available upon separate order).

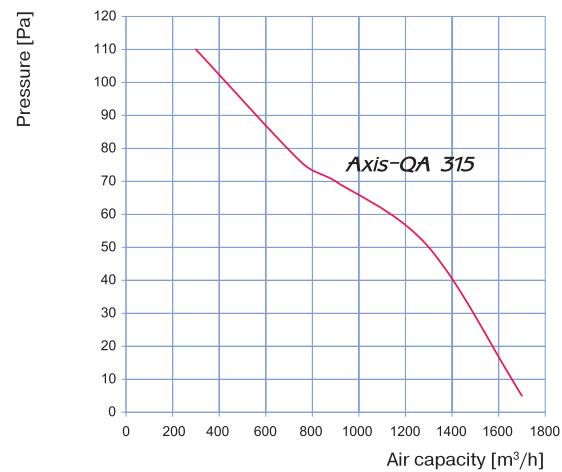

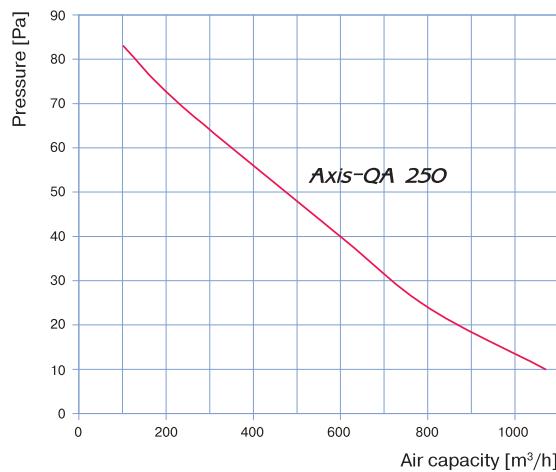

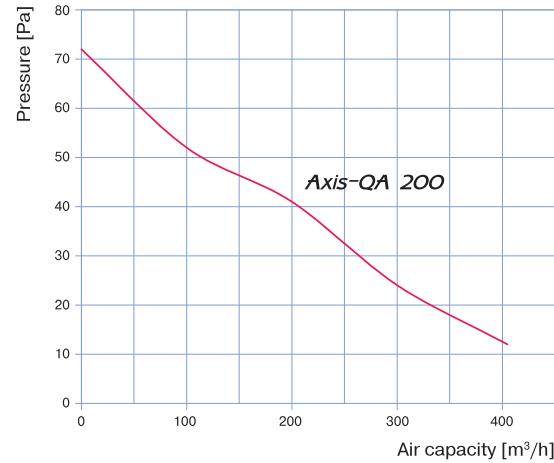

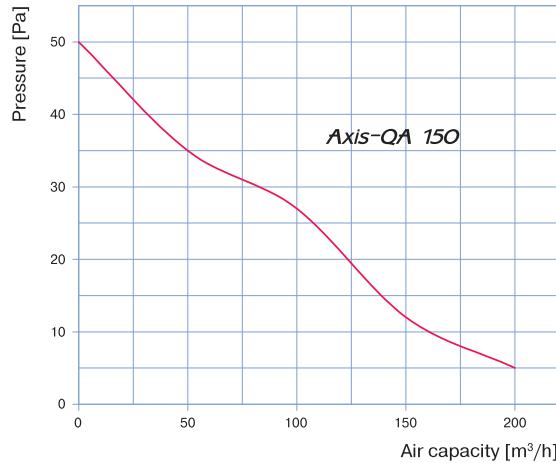

### ■ Mounting

- Wall surface mounting with a square connecting plate.
- Power is supplied through an external terminal box with sealed electrical lead-in.
